

Adinizer® Hair Plus

Hair Plus (Autologous Micrograft): Natural and Effective Solution for Hair and Skin

The kit under discussion includes the Adinizer AN200 ultra-sharp blade system and specialised equipment for the harvesting of micro-composite grafts from behind the ear. The kit has been meticulously designed to address all the requirements of the end user.

What is Hair Plus?

Hair Plus is an autologous micrograft treatment for hair loss and skin problems. This treatment, which involves the application of autologous cells, has been shown to yield effective results in the treatment of signs of aging and scarring of the skin, while concurrently strengthening hair follicles.

You can choose Hair Plus for natural, safe and permanent solutions.

How Does Hair Plus Work?

Hair Plus offers a personalized treatment method. The process consists of the following steps:

- **Removal of Personal Cells:** 3-5 grafts are taken from the area suitable for hair or skin problems.
- **Micrograft Preparation:** The cells are transformed into micrografts through a special process with ultra-sharp blades.
- **Application:** The prepared micrografts are carefully applied to the areas with hair loss or wrinkles, scars and other problematic areas on the skin.

Hair Plus Kit includes:

- 1 piece VACUSERA Gel PRP Tube Set
- 1 piece Smart Kit - Fat Separator, Ultra sharp blade (200)
- 1 piece Biopsy Punch 2 mm
- 2 pieces Syringe with Hypodermic Needle 5 ml
- 4 pieces Syringes with hypodermic needle 1 ml
- 4 pieces Hypodermic Needles 30 G
- 1 piece Sterile Plain Drape 50x70 cm
- 2 pieces Injector Lock Adapter - White

We offer healthcare professionals innovative solutions with our VACUSERA PRP, Adinizer and Exosome technologies. We want to give you more options with our wide range of products and support you on your beauty and health journey.

Hair Plus

In Which Areas is Hair Plus Used?

Hair Plus not only prevents hair loss, but also contributes to youthful and healthy-looking skin. **This method, which provides a natural regeneration with your own cells, offers a comfortable and effective solution with its non-invasive structure.**

- **Hair Loss:** It is one of the most effective treatment methods for people with hair loss.
- **Skin Rejuvenation:** It provides effective results on fine lines, wrinkles, loss of elasticity and age spots on the face.
- **Skin Blemishes and Scars:** It offers natural solutions for acne scars, acne scars and other skin problems.
- **Skin Volume Loss:** It provides plumping, especially in areas with volume loss such as cheeks and chin area.

Advantages of Hair Plus

Hair Plus is a natural, safe and innovative solution that supports your hair and skin health.

- **Natural and Safe:** Since the person's own cells are used, there is no risk of allergy and completely natural results are obtained.
- **Rejuvenating Effect on Hair and Skin:** It both treats hair loss and provides effective results against signs of aging, acne scars and other skin problems.
- **Minimally Invasive Application:** It does not require major surgical procedures, the healing process is quite fast.
- **Permanent and Effective:** Hair transplantation and skin rejuvenation procedures offer permanent results in the long term.

Hair Plus Application Process

Hair Plus offers a comfortable and effective treatment process. The procedure usually includes the following steps:

- **Counseling and Assessment:** The specialist determines the most appropriate treatment plan by evaluating the hair or skin structure of the person.
- **Graft Harvesting:** The cells required for micrograft are harvested from the scalp or a suitable skin area.
- **Micrograft Preparation:** The harvested cells are processed in a special way to make them most effective.
- **Application:** The prepared micrografts are carefully injected into the needed areas.
- **Recovery and Results:** After the application, the healing process begins and visible results appear within a few weeks.
